**http://**[www.hydraulik-service.com](http://www.hydraulik-service.com)

## SERVICE

**We take it seriously**

Repair of machinery  
and plant components,  
performance optimisation,  
PLC control systems,  
servicing,  
spare parts service.

**Görgü Hydraulik -  
Maschinenbau GmbH**  
Industriestraße 15 a - d

**Tel.** (04 193) 89 77 - 0  
**Fax** (04 193) 89 77 - 77

# SERVICE

**We take it seriously**

**We are a firm specialising in hydraulics and machine engineering with our own workshops and qualified staff. This means we can fully cover all aspects of hydraulics, pneumatics, machine engineering, electrical engineering, control and regulator technology and PLC programming.**

You too can profit from our many years experience in fault analysis in the fields of hydraulics and control technology. We carry out repairs of all makes of machines and machine components on site and in our own workshops. You can count on our know how when it comes to extending or modernising your systems as well. Maintenance contracts are available on request. In cases of emergency, our engineers are available at short notice, even outside normal business hours as well. This will help you reduce downtimes to a minimum. We have a permanent stock of repair and spare parts for hydraulics, pneumatics, and control technology from all well-known manufacturers, or they can be obtained in at very short notice.

**Tel.:**

**+ +49 (0) 4 193  
89 77-0**

**Fax:**

**89 77-77**

Have we aroused your interest? Mr. Görgü himself is at your disposal for a detailed consultation.

We would be delighted to work on your behalf.

**We repair all makes of machinery, plants and components.**

Hydraulics

**We optimise performance for hydraulics, pneumatics and control technology.**

Pneumatics

**We supply spare parts for hydraulic and pneumatic systems, and machinery.**

Control technology

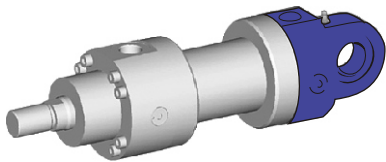

**We are expert in control technology and PLC programming.**

Automation and Drives

**We supply fittings and seals, and we provide a hose service.**

# HYDRAULICS

## Automation and drives

**ABEX**  
**BOSCH**  
**CAMOZZI**  
**DENISON**  
**HALDEX**  
**HAWE**  
**HYDRAULIKRING**  
**HYDROLUX**

**PARKER**  
**REXROTH-BOSCH**  
**SAUER**  
**STAUFF**  
**UCC**  
**VICKERS**  
**VOITH**

It could happen any day - the hydraulics on your production system or machine just stop working. Production is at a standstill.

Downtimes, delays, trouble with customers.

This is when quick help is needed. Our engineers are soon with you on site and our spare parts stock covers all standard makes and components. We will repair your hydraulics components on site or in our own workshops.

We supply spare parts at short notice.

**Accumulators**  
**Ball valves**  
**Couplings**  
**Cylinders**  
**Filters**  
**Hoses**

**Pressure gauges**  
**Proportional technology**

**NUMATICS**

**ORIGA**

**PARKER**

**REXROTH-**

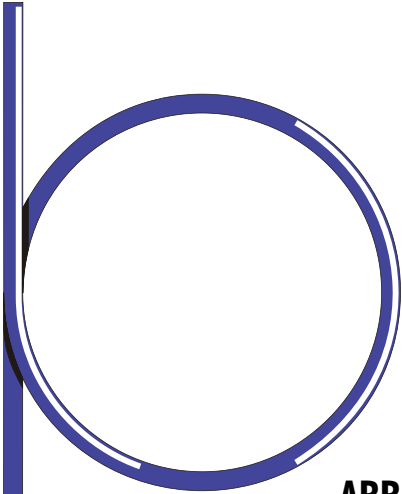

**MECMAN**

**ROSS**

We carry out expert repairs on pneumatic components for production machinery and handling devices either on site or in our own workshops. We have many years experience in vacuum technology. Our service technicians can be on the spot at short notice. We have spare parts for all standard makes and components on stock.

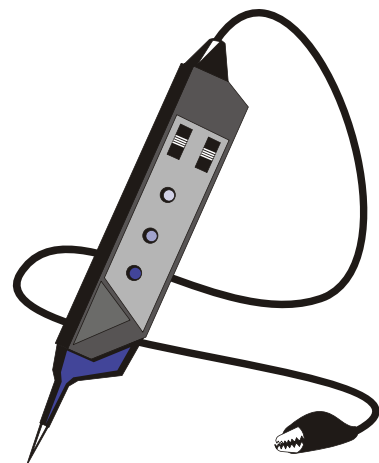

# ELEKTRICS

## Electronics, control cabinets

**ABB**  
**BARKSDALE**  
**CONTACT**  
**DI-SORIC**  
**ELEKTRA TAILFINGEN**  
**IFM**  
**IMT**  
**LAPP KABEL**  
**MITSUBISHI ELECTRIC**  
**MÖLLER**  
**MURR**  
**OMRON**  
**PENNY + GILES**  
**PMC**  
**PEPPERL + FUCHS**  
**PHOENIX CONTACT**  
**SIEMENS**  
**TELEMECHANIQUE**  
**WEIDMÜLLER**

Electrical industrial installations for control, monitoring and drive systems are in the best hands with us. From planning to manufacture, installation and including repairs. Whether it is the manufacture of components, cable harness, the fitting terminal boxes or the manufacture of switchgear for complex machines and systems - we are in a position to react quickly and flexibly to all customer requirements. It is precisely in the field of combining industrial electrical systems with technologies like hydraulics, pneumatics, air-conditioning and measurement equipment, that our employees are especially trained. Quality-conscious work is our first Commandment.

# PLC

## Controls, industrial automation

**Automation and drives**

**Control technology**

**Image processing**

**DeviceNet**

**Ethernet**

**Fieldbus**

**Inverters**

**IPC**

**Network technology**

**PLC**

**Profibus**

**Remote maintainance**

**Sensor technology**

**Safety**

**Transmitters**

We opt for PLC and IPC for robot and plant control systems. For you this means less wiring, faster commissioning, less sources of error and easier adaptation to new demands. Irrespective of whether an 'island' solution is involved, or more than one control system is to be fed centrally into the control unit, we will work out a suitable solution to meet your requirements. In doing so we are able to fall back onto tried-and-tested technology offered by various manufacturers. The programming is done by trained and experienced specialist personnel. We retain a high measure of professional qualification through regular programmes of further training

Example application::

Injection moulded parts are removed from the injection moulding machine, with the left-hand and right-hand parts being placed in separate containers. Once the specified quantity is attained, the containers are moved off via a conveyor belt.

**Omron**

**Siemens**

**Mitsubishi Electric**

**Möller**

**Gosewehr Gorobtronic**

**Suhling Andras-System**

<http://www.goergue-hydraulik.de/sps.htm>

# **SCREW** TECHNOLOGY

## **for hydraulics and pneumatics**

In the sector of screw technology you can find the right solution for your requirements:

**hydraulic screw connectors,  
flange connections,  
measurement connections,  
hydraulic piping,  
pipe bends and clamps,  
adapters,  
flanged screw fittings ,  
snap-lock couplings,  
check valves,  
shuttle valves,  
two-way valves,  
ball valves, port valves,**

# **FILTER** TECHNOLOGY

## **cares for plant and environment**

From our product range we can provide you with hydraulic filters from leading manufacturers for a variety of applications.

We would be delighted to reply to your enquiries.

**Suction filters**  
**Pressure filters**  
**Return filters**  
**Ventilation filters**  
**Contamination indicator**  
**Filter units**

**ARGO**  
**BOSCH**  
**DONALDSON**  
**FAIREY ARLON**  
**HENGST**  
**HYDAC**  
**INTERNORMEN**  
**KNECHT**  
**MAHLE**  
**MANN**  
**PALL**  
**PARKER**  
**STAUFF**  
**UCC**  
**UFI**  
**ZANDER**

# **PUMPS** and repairs

## **Pump mountings and couplings**

We have been collaborating with well-known pump manufacturers for years. We stock the full KTR range of pump supports and couplings.

On account of our many years experience, it is precisely in the areas of replacement procurement and repair of hydraulic pumps that we are your specialist liaison partner. We carry out pump repairs in our own specialist workshop. We have a permanent stock of most repair and spare parts. This helps you avoid long delivery times.

# SPARE PARTS

are procured by us

Wir beschaffen Ersatzteile für Hydraulik, Pneumatik und Steuerungstechnik nahezu aller namhafter Hersteller aus dem In- und Ausland. Einen Großteil der Komponenten haben wir ständig auf Lager. Unser Sortiment umfaßt beispielsweise:

**connection equipment, hydraulic hoses and fittings, including ready assembled, hose presses, filters and filter elements, metal and plastic seals, O-rings, groove rings, gears boxes, motors, pumps, cylinders, pipes, rods, limit switches, control elements, electrical installation, PLC control systems**
